REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding amended independent claims 1, 12, 23, and 32, none of the references, either singularly or in combination, teach or suggest to a person of ordinary skill in the art at the time of the invention the features, "...updating said generated dynamic page stored in said storage device by generating and storing an updated dynamic page according to said file name stored in said table and based upon said page template and said page generation call with said argument stored in said table in association with said page update trigger in response to at least one of predetermined page update events in advance of another user page access request..." and "outputting said stored dynamic page as updated in said step d) and in response to another one of said user page access request, said user page access request containing a page generation call with an argument stored in said table in association with a file name corresponding to said outputted dynamic page," together. The examiner notes that while dynamically generating web pages is not a novel feature (See Examiner Referenced Patents and Non-patent Literature), but in combination with the other limitations of the method steps and system functions of the independent claim (i.e. updating said generated dynamic page stored in said storage device by generating and storing an updated dynamic page according to said file name stored in said table and based upon said page template and said page generation call with said argument stored in said table in association with said page update trigger in response to at least one of predetermined page update events in advance of another user page access

request) the limitations of claims 1, 12, 23, and 32 are considered novel, and unobvious to a person of ordinary skill in the art at the time the invention was made in view of the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
